

TESTIMONIALS

'The DISC profiling is an incredible tool! It has helped me become more aware of myself and why I behave and respond in certain ways. MNA has helped me to understand and maximize my learning from my DISC profile. My coach was always patient to guide me and answer my questions. Now I can use this behavioral tool to better understand myself and the people around me.'

- Fiona Ong, 33

'I have done 3 DISC profiling with my schools and church previously, so I was curious about how would MNA's DISC coaching would be any different. I was impressed with the personalized coaching session. I learnt that my behavior is a choice. After the coaching session, I became more conscious and aware of how myself and other people make decisions. DISC profiling has definitely helped me better manage my work with people at my workplace.'

- Samantha Loong, 22

'DISC helped me to better identify and affirm my reasons for leaving my previous employments. It has also provided me with insights to my leadership at work. As I seek for my next employment, I would be more aware of the types of environment and responsibilities at my job which can help bring out my greatest potential to succeed.'

- Josephine Poh, 24

'I was very impressed by the DISC coaching by MNA as well as quality of the report given. In fact I had had DISC profiling a few years ago in school being a teacher, and to be honest I did not have as clear understand of my profile as this round. After attending the coaching session, I now have a deeper understanding of my profile and to know how to progress further. It will certainly be useful for students as well to discover their own strengths and weaknesses, therefore to determine their future direction.'

- Ahmad Zaidi Bin Zainal, 35

'DISC profiling has helped me to look at my behavior objectively, and it provides me with insights to my weaknesses. The accuracy of DISC profiling was impressive, and MNA's individual coaching session is also very effective as my coach helped me with relating the typical behavior of my dominant character to my own behavior in real life. I am convinced that DISC profiling is a very reliable tool for personal development and career selection.'

- Kanako Mori, 36

YOUR COMPANY NEEDS AN EXCELLENT DISC CULTURE TO SAVE YOU TIME, MONEY AND EMOTIONAL ENERGY

DISC is a behavior profiling tool for describing how people behave.

Dominance describes people who like making decisions for themselves and others

Influence describes people who like socializing and leading others through persuasion

Steadiness describes people who like working closely with others as part of a team

Compliance describes people who like detail and seeing a plan through to completion

Your individual profile would tell you how strongly each of the 4 styles above are expressed.

With each comprehensive 10-page report of your staff and potential hire, you will find the following essential information:-

Working, Personal and Public Style

Degree of Work Adaptation

Response to Pressure

Observable Strengths and Limitations

Relationship Dynamics

Planning and Decision-Making Style

Suitability for Management, Service, Sales and Technical Work

Top 10 Suitable Jobs

Interview Questions for Personal Reflection
